Vintage Thrivals

by richrocket

Vintage Thrivals is a clothing company that celebrates the creativity of the 80's, the freshness of the 90's and the coolness of today through Custom, Distressed, Vintage, Original pieces! Vintage Thrivals is a brand that helps express personal style, fights against fast fashion, and practices the importance of sustainability.

Vintage Thrivals is your brand if you want to stand out during a special occasion, or if you want to BE the occasion! You can shop Vintage Thrivals by scheduling a shopping experience at our home studio, finding us at a Pop Up, inviting us to your next event, or we can provide a Home Shopping Experiences.

Our focus this year is taking Vintage Thrivals global. Expanding our reach, our inspiration, and providing the world with next level custom expression and artistry through sustainable fashion!

This year Vintage Thrivals will be presenting a very special presentation. It will be a true amalgamation of inspirations that all tie into the theme of the collection, amply named "Spera Caelo" which in latin translates to Trust the Sky. This new venture for the brand will roll out in a few special culminations, that will span the course of the year.

Thankfully the Vintage Thrivals team has been able to spend the last year traveling the world gaining inspirations for this collection, as well as gaining insights from the way the world has been adjusting to the recent pandemics, and other social issues. Through it all, the thread that has had held us all together, is trusting that will get through it all, finding our strength in what powers us. Trusting the Sky.

These pieces will tell a story of resilience. A celebration of overcoming, while still remaining true to the design elements that have give Vintage Thrivals its staying power in the sustainable fashion space! Illustrating the energy that has given us the strength to simply Spera Caelo!
